### About E-WeREST

E-WeREST mission is to develop scalable and efficient Open Innovations ecosystem around telecommunication and mobile technologies in Eurasia. E-WeREST group consists of FRUCT community, Russian MeeGo community, Russian Qt community, Smart Spaces community ruSmart, regional community on Mobile Healthcare, and EU-Russia-India R&D cooperation. E-WeREST provides consulting and management services for cross-border projects between EU, Russia, CIS and India. The program was established in 2007 and by now has become the most significant and fast growing cooperation region framework between leaders of ICT industry and universities. Our main principle is in lowering cooperation entering thresholds by developing technological communities and setting R&D projects run by students under direct joint tutoring of industrial and academic experts.
