

An aerial view of a city at sunset. The sky is filled with soft, golden light and scattered clouds. A large commercial airplane is flying in the upper left quadrant of the sky. Below the sky, a dense urban landscape is visible, featuring numerous high-rise buildings and a complex network of elevated highways and bridges. The overall scene is bathed in the warm, orange glow of the setting sun.

Introduction to **DELL** Technologies

Dell Technologies is a **unique family of businesses** that provides the essential infrastructure for organizations to build their digital future, transform IT and protect their most important asset, information.

Dell Technologies consists of 7 brands:

DELL EMC

virtustream

vmware®

RSA™

SecureWorks®

Pivotal™

The building blocks of Modern IT

We lead in patent power

Recognized as a market leader by Gartner in **20**
Gartner MQs

External Research and Academic Alliances (ERAA)

ERAA Program Scope

Research

- Access to technology expertise and provocateurs across ICT ecosystem to drive R&D efficiencies
- “Horizon Watching” - Exploration of disruptive and emerging technologies
- Investments of technical experts time and relationships (currency more valued than \$) to drive confluence of technologies
- Understanding what not to do as well as what to do

Education

- Engage the academic leaders who are influencing the next employees, innovators, technologists and customers
- Share Knowledge across the ecosystem to shape the future
- Close the technology skills gap by offering “open” curriculum to our Academic

Mindshare

- ~~Alliances~~ Demonstrated Technology Thought Leadership in ICT global ecosystem
- Knowledge from interactions drives innovation
- Predict and influence new technology directions
- Influencing the current + next generation of ICT leaders (500,000+ students)

Business Development

- Create and sustain a consistent engagement model with external technical ecosystem partners
- Leverage relationships to support Higher Education market opportunities
- Generation of Intellectual Property and/or Open Source initiatives

Return on Investment

- FY2016 ERAA program external investment = \$625K
 - Leverages \$35M external research portfolio + \$150K internal cost share + Cost savings estimated \$2.1M
- Results: MIT Tech transfer to support POC for IoT; 1st next gen storage open source community; 1st company to example managing data as a corporate asset; Contributions to 2Tiers™/ Omnibond; 75+conferences, visits, presentations; Engagement support for estimated \$5M potential revenue generation...

Academic Alliance Program – Courses

- Partnering with academic institutions to prepare students for roles in Virtualization, Cloud Computing, and Data Analytics – future IT leaders
- Provides members access to unique “open” courseware that focus on technology, not products, for faculty to teach technology topics applicable to any vendor environment at no cost
- EMC Course Offerings
 - Information Storage & Management (ISM) V2 & V3
 - Cloud Infrastructure & Services (CIS) V2
 - Data Protection and Management (DPM)
 - Launched this quarter
 - Replaces Backup Recovery Systems & Architecture (BRSA) course
 - Data Science & Big Data Analytics (DSA)
- MOOC Offerings!

DEVOPS
What, Why, and How

A Free MOOC* that explores the impact, challenges, and opportunities that DevOps presents.
